TOWN MANAGER

Mrs. Carter states that as council is aware she missed last month's meeting because she was attending the Local Programs Workshop provided by VDOT. She states that she feels it proved to be very beneficial as far as having bootcamp courses on how they want those applications submitted and run for grants through VDOT. She states that they do now have DMV access to make tax billing much easier. Mrs. Carter also states that she spoke with ARC and they are going to pay Miracle's wages while Abby is away. She states the Board Of Supervisors has set a public hearing for the boundary adjustment for next month. She also states that the structural engineer did come and do the assessment on the Town Hall Building and we are just waiting on the final report back on that. Mrs. Carter states there are two sets of minutes in the packets from the Cumberland Airport Commission. She states that our representative on the Cumberland Airport Commission is George Dean, and they are asking if the town is going to do a donation like they did last year. She states that last year the town donated \$500 dollars. She states that the last thing she has is that the Christmas Parade permit was approved and is set for December 14th. Councilman Cauthorne asks if that is later than normal. Mrs. Carter states that we moved it last year to better suit Santa, and kept that same time frame again this year. She also states that typically what has been done in the past is that the Mayor does line-up and all planning for the Christmas parade. She asks the mayor if that is something that he would want to or be able to continue. Mayor Cauthorne states he will get in contact with her about it. Councilman Cauthorne asks what the benefits the CAC gives the Town Of Pound. Mrs. Carter states that it was her understanding that the donation gives the town a vote on the board. She states that they would like to combine their public hearing with the council's public hearing for next month. Mr. Dotson states that it needs to be addressed what the town needs in reference to zoning. He feels that the town's ordinance is outdated and no zoning board. He states that legalling the town does not have a zoning ordinance because it is not enforceable.
